senior colorist on:

## profile

as digitalfilm tree's senior colorist, I oversee our bleeding edge technology and innovative workflows, including remote dailies & finishing, which have helped network and streaming shows alike to achieve tonal, emotive excellence through color.

across scripted and unscripted, hdr, sdr and hdr express, i have been proud to partner with story tellers through a decade of innovation and creative choice that has allowed digitalfilm tree to deliver some of the most compelling and visually appealing content on air today.

(additional credits include: cougar town, undateable, whiskey cavalier, angie tribeca, wrecked, american housewife, the 100 and more.)

## experience

### senior colorist & chief technology officer, digitalfilm tree

los angeles, ca 2019-present

lead color scientist and client partner, developing both look and workflow with various stakeholders across a show to deliver mesmerizing visuals, as well as breakthrough technological feats.

### editor / colorist / dailies tech, digitalfilm tree

los angeles, ca 2013-2019

postproduction multi-hyphenate with full scope knowledge and appreciation for end-to-end services. from syncing dailies to best light color, online editing to color assist, and dubbing to io, my focus was on growing as a storyteller who could best empower other creatives with technology and my passion for color science.

### videographer / editor / predictor, power automedia

temecula, ca 2013

planned, directed, shot and edited spots for commercial and web for various powerauto media brands and clients. took a project from concept to final delivery. clients included mustang, mazda, mickey thompson tires, road authority, and modern muscle, among others.

### senior editor, cordero studios

san dimas, ca 2012-2013

log, edit, sound design, vfx, and color correct projects for various companies, including commercials, pilots, and web content. clients included rob report magazine, bugatti, ferrari, ritz carlton, and top chef to name a few.

## education

### bfa, film production

chapman university, ca 2008
